

7th 1-5

## Solving equations

ex.)  $8 + x = 15$

Ask yourself - What number can I plug in for  $x$  that can be added to 8 and equal 15?

(7)  $8 + 7 = 15$  ☺

ex.)  $20 = y \div 5$

Ask yourself - What number can I plug in for  $y$  that can be divided by 5 and equal 20?

(100)  $100 \div 5 = 20$
